

# School of Colours

Colours are as close as printing process allows

## Design Colours Colour Concentrate Underglazes

Design Colours are Australian Made, ball-milled, lead free and non toxic liquid colour concentrates – giving the potter a radiant palette for decoration. Very fluid and ready to use straight from the container, these colours are “paint for clay” that will not powder on drying. The colours are strong and vibrant on Stoneware, even better on Earthenware. Colours are easy to use on either bisque, greenware or over a glaze. Design Colours are intermixable within the range and also with Wunder Colours and Cesco Underglazes. They can be extended with FE110 Colour Extender for versatility or even add FE100 Flux Extender for beautiful majolica decoration.

<b>FK1</b> Coral	<b>FK8</b> Lobster Red	<b>FK15</b> Squid Ink Black	<b>FK22</b> Sea Lettuce
<b>FK2</b> Tropical Lime	<b>FK9</b> Anemone Red	<b>FK16</b> Dolphin Grey	<b>FK23</b> Barnacle Brown
